(8) All persons from 7:00 a.m. to 5:00 p.m. entering the George Allen and Frank Crowley Courts buildings will be screened/searched for weapons. Any person not wanting to utilize the convenience of walk-through metal detectors and X-ray machines may be individually searched by visual observation and handheld metal detectors. However, unless such individual has a medical or occupational requirement the individual screening will only be performed when it does not cause an inconvenience to others. This may cause such individual during peak traffic periods to wait 30 minutes or more before they can be individually screened.

(9) No person will be allowed unauthorized access into any county facility. Persons gaining unauthorized access will be escorted from the facility and, if conditions warrant, arrested. This will include an official or employee in a facility without county identification.

(10) Employees using a card key to enter any county building will be required to prohibit any access other than their own. If any employee observes any unauthorized access, they must notify security at once.

(11) Departments and/or individuals desiring building access other than normal business hours must schedule such access with county security.

(12) All nonauthorized exits will be secured and closed except for emergency use.

(13) All persons donning religious head coverings and other garments:

- a. An individual wearing a religious head covering or other religious apparel should be allowed to walk through a metal detector without removing that head covering or apparel.
- b. If the metal detector beeps, the individual should be given time to remove all other metallic objects from his person. If the individual sets off the metal detector for a second time, a hand wand, if available, should be used to screen the individual.
- c. If no metal detector or hand wand is available, or the metal detector or hand wand beeps while screening over the head covering or religious apparel, the screener should respectfully escort the individual to a private room, if available, in order to pat down the head covering or religious apparel. Before doing so, the screener must explain, in advance, the reasons for patting the religious garb in order to minimize any misunderstanding.
- d. If a security concern continues to exist only after the former procedures have been completed, the screener is justified in requesting the individual to remove his or her religious apparel in a private room and, if possible, by a member of the same gender.
